INSTRUCTIONS FOR YOUR OWN FLIPBOOK: 1. PRINT 2. BIND 3. FLIP

DETAILS

...

All flip books included on website were printed on white uncoated 12 in x 17 in paper using various inks (listed on each web page). Printer used was RISO SF9450 E11U.

PRINTING

...

If you're located in the Bay Area, here are local printers that have workshops and/or risograph printers available for reservation:

- Berkeley Art Studios
 - Max's Garage
 - Irrelevant Press
- Friends & Neighbors SF

BINDING

...

For best binding results, align pages along flip edge.

There are many non-drill or non-adhesive methods, try several to see what works best.

A few options include;

- Embroidery thread
- Screw and washer or nut
 - Binder clips
 - Fabric
 - Staples
 - Coils

MAKE THE FLIPBOOK YOURS!

...

Experiment with different size paper, color of inks, registration or even the order of the pages.

Happy printing!
